2018 Budget Message

Introduction

The budget reflects the projected spending plan for the 2018 fiscal year based on available revenues. This budget provides for the annual debt service on the District's General Obligation Debt as well as the general operation of the District and debt service.

The District's assessed valuation increased to \$8,218,129 in 2017. The District's mill levy 35.000 mills certified to the General Fund and 40.000 mills certified to the Debt Service Fund, for collection in 2018. Total Property Tax generated is \$616,360.

The District was formed in 2006 for the purpose of providing design, financing, acquisition, and construction, of certain infrastructure improvements including streets, public safety, and parks and recreation.

Budgetary Basis of Accounting

The District uses Funds to budget and report on the financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions. The various funds determine the total District budget. All of the District's funds are considered Governmental Funds and are reported using the current financial resources and the modified accrual basis of accounting. Revenues are recognized when they are measurable and available. Revenues are considered available when they are collectible within the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures, other than the interest on long term obligations, are recorded when the liability is incurred or the long-term obligation paid.

Fund Summaries

General Fund is used to account for resources traditionally associated with government such as property taxes. Expenditures include district administration, legal services, and other expenses related to statutory operations of a local government. The primary source of revenue for the General Fund comes from property taxes, specific ownership taxes and facilities fees. This fund is used to account for landscaping and general operations and maintenance expenses of the District facilities.

Debt Service Fund was created in 2008 to service the District's \$610,904, 2008 Series A General Obligation Capital Appreciation Bond and \$3,108,609, 2008 Series B General Obligation Capital Appreciation Bond. Both A and B Series Bonds bear an interest rate of 6.0%. The bonds were issued to provide financing for street improvements, parks and recreation projects, and traffic and safety improvements. In 2011 the Bonds were restructured and below is a consolidated summary of the combined restricted debt service schedule. The Debt Service Fund's primary source of revenue to repay the bonds comes from property taxes and specific ownership taxes.

Emergency Reserve

As required under Article X, Section 20 of the Colorado Constitution, the District has provided for an Emergency Reserve in the amount of 3% of the total fiscal year expenditures in the General Fund.
